TIPS FOR PARENTS TO HELP CHILDREN ADAPT

IN THE BEGINNING OF THE YEAR:

- Motivate your child and talk positively about school, friends and toys.
- Bring your child to school every day until he or she has adapted.
- Work together with your class teacher
- Walk with your child to his or her class
- Assure him or her that you will pick them up and give a concrete time for example after sleep time of outside play time.
- GREET AND GO! The longer you stay the more difficult the goodbyes are...it also upsets the other children in the classroom
- Get the child in a routine especially with sleep and wake up times. It gives them a sense of security
- Do not discuss the teacher in front of your child. Always talk with respect.
